ABOUT EVENT

"**Health Tech Talk**" is a great event at the sideline of **IPH2024** to showcase and discuss the latest and trending technologies that are transforming the healthcare industry. In this event, you will hear from leading experts, practitioners, and innovators who are shaping the future of healthcare with cutting-edge solutions and applications. Some of the trending technologies and topics that the event speakers will discuss:

- Artificial Intelligence (AI) and Machine Learning for diagnosis, treatment, and prevention of diseases
- Wearable Devices and Sensors for monitoring and enhancing health and wellness
- Telemedicine and Remote Care for increasing access and convenience of health services
- Digital Health records for ensuring security and privacy of health data
- Biomedical Engineering and Nanotechnology for developing new therapies and devices
- Metaverse, Virtual Reality (VR) and Augmented Reality (AR) for training, education, and rehabilitation
- Blockchain technology for improving supply chain management, reduce counterfeit drugs, and improve data security.
- Internet of Things (IoT) for improving patient monitoring, drug adherence, and clinical trials.
- Latest technologies related to Medical Equipment, Instruments and Devices.
- and more ...

You will also have the opportunity to network with other attendees and speakers. Whether you are a health professional, a researcher, an entrepreneur, or a curious enthusiast, you will find something valuable and inspiring in this event.
